

To whom it may concern,

K-LOVE is the only radio station I listen to in my community. I support it financially each month. For our city, there is very little choice for quality Christian music. I listen to it day and night and would be very upset if it were replaced with a LPFM. K-LOVE is also a station my whole family can listen to. I have been listening to K-LOVE for several years. It has become a very important part of my life in that time. I am encouraged and lifted up spiritually on a daily basis. Please preserve the station we have by limiting LPFM expansion that would interfere with the signal we receive from our FM station.

Sincerely,

Candy Marshall
